~~Instruction Manual — Nikon~~
The Nikon F90x is a 35mm autofocus SLR using Nikon's F lens mount. It was targeted toward the advanced amateur or prosumer; its feature set is comparable to that of Nikon's current D100/200/300 SLRs. The name N90s was used for marketing in the United States; everywhere else, the camera was called the F90x. This camera was also used as the base for the Kodak DCS 400 series of digital SLRs.
